Our Business Card

A business card with a white background and a pattern of orange circles of varying sizes, creating a bokeh effect. The text is centered and reads:

Recycled Jewelry

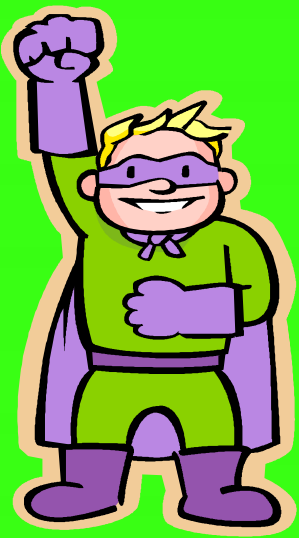

Saving the Earth.....
One piece of jewelry at a time

Role of members

- *Lynn- Team Leader/Executive in charge of sales and production*
- *Donna and Nikki- In charge of the production of the recycled earrings*
- *Leondra- Financial, invoicing and purchasing supplies, shipping merchandise*
- *Lexi- Internet and local retailer of the recycled jewelry*

Introduction

Have you ever just throw out jewelry because it's outdated, broken or simply unwanted?

Our Mission

To show people that just because something is old, broken, or unwanted doesn't mean it can't be taken apart and used as something else.

What are we going to do about it!!

*Make earrings out of broken
jewelry donated from our
fellow classmates.*

Time

We have spent most of our time during this program making the recycled earrings.

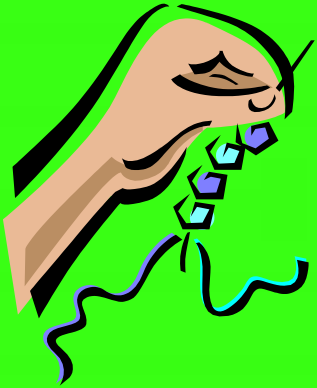

We plan to sell these for \$2.00 a pair.

We have completed a total of 65 pairs.

After this 6 week program, some of us plan of continuing making the earrings for fun and possibly to sell.

Total

- *We only paid for the materials needed. The total cost for these items was \$26.*
- *To create a pair of earrings the total cost was \$.40.*
- *We are selling them for \$2. Giving us a profit of \$1.60 for each pair. If all 65 pair are sold we will make a profit of \$104.*

Materials Needed

- *Hooks*
- *Pins*
- *Beads*
- *Broken Jewelry*
- *Small Ziploc bags*
- *Needle Nose pliers*
- *Side cutters*
- *Round Nose pliers*

How To Do It!

- *Pick out some colorful beads taken from broken jewelry*
- *Take your pin and put the beads on it*
- *Cut the pin to size in order for the earring to be the right length*
- *Take your fish hook and slide the pin through the hole in the bottom*
- *Use the round nose pliers to curve the pin so that the pin wont fall out*
- *Take the needle nose pliers and clamp the curved pin*

Our Teamwork

- *We brought our creativity together to make multiple pairs of earrings.*
- *Together we passed out the flyers and business cards.*
- *And each member brought in their old broken jewelry for everyone to use.*

How We Got the Word Out

The group posted flyers up at:

- *Wal-mart*
- *Foodtown*
- *Kroger*
- *Save-a-lot*
- *Gas Stations*

We also passed out our business cards

Community Oriented

- *People from the community donate the old jewelry*
- *They bought the earrings, putting money back into the program*
- *Therefore allowing us to buy more materials so that we can make more jewelry*

Some of Our Earrings

Volunteer Work

- *Lynn- Village of Lebanon*
- *Donna- Village of Lebanon*
- *Lexi- Caring Closet*
- *Nikki- Caring Closet*
- *Leondra- Had a Baby*

Leondra's baby!

The Caring Closet

Two of the people in our group volunteered to work for The Caring Closet on Tuesday, Wednesday, and Thursday from 9:00 am to 4:00 pm. They helped organize all of the donations brought in to the store, fold and hang clothing, color coordinate, clean, and also helped manage sales.

What Do They Support?

The Caring Closet is a consignment store that takes donations from the community and sells them to help raise money to support the Caring Place. The Caring Place is a organization that provides shelter and counseling for women and children who have been a victim of domestic violence

What is The Village of Lebanon?

It is a place for the elderly people to live and get help with their everyday lives.

Also in the same building is Assistance Living. Which is where the elderly live that don't need constant help and are free to come and go when they please.

What We Did at The Village of Lebanon!

We volunteered on Tuesday, Wednesday, and Thursday from 9 a.m. to 4 p.m. We helped organize the activities. Like BINGO, games, and movies with popcorn and drinks, and took them on walks outdoors. We also helped hand out food.

Village of Lebanon Activities

How Village of Lebanon is green

We helped think of new ways to make The Village of Lebanon more green by looking into new cleaners and energy saving products that could make them more efficient. For example instead of throwing away cans, start recycling them.

Roles in Learning

- *Environmental- Recycled Earrings*
- *Entrepreneur- Selling Earrings*
- *Leadership- The Village of Lebanon and The Caring Closet*

Environmental

*We took old unwanted jewelry and
turned them into new wanted
jewelry.*

Entrepreneur

- *We sold our earrings to friends and family.*
- *We plan on selling them to people in the community*

Leadership

- *The Village of Lebanon*
- *The Caring Closet*

Thank You!
